

# OVERCOME.

A Subtle Enemy At Last Finds Its Equal.

Consumption Often Cured by Pe-ru-na.

Pe-ru-na Cures Catarrh, Even If It's of the Lungs.

UNTOLD agonies did I suffer for a long time with my lungs. The doctors stated I had consumption. I could get no relief until I tried your Pe-ru-na. It cured me and to-day I am sound and well. Will Walton, Higginsville, Mo.

The above is one of many testimonials that are continually coming to hand in praise of Pe-ru-na, even for such serious affections as consumption. Catarrh is the king of all evils. Catarrh is inflammation of the mucous membrane or inner lining of the organs of the human body. Catarrh may manifest itself in any one of the great vital organs of the body, but no matter where, you can cure it by taking Pe-ru-na. Buy it of any druggist. If you need any particular advice or directions, write to Dr. S. B. Hartman, of Columbus, Ohio, and he will gladly give you same free.

Robert Lilly is making preparations to resume work at his blacksmith and anchor shop on Commercial street.

An Enticing Drug.

There are few men more wide awake and enterprising than S. Anderson & Son who spare no pains to secure the best of everything in their line for their many customers. They now have the valuable agency for Dr. King's New Discovery for Consumption, Coughs and Colds. This is the wonderful remedy that is producing such a furor all over the country by its many startling cures. It absolutely cures Asthma, Bronchitis, Hoarseness and all affections of the Throat, Chest and Lungs. Call at above drug store and get a trial bottle free or a regular size for 50 cents and \$1.00. Guaranteed to cure or price refunded.

The High School class of '99 will hold the graduating exercises in the Winter Street church, Friday evening, June 16th.

Bucklen's Arnica Salve

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or any pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box for sale by S. Anderson & Son.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamnick & Co., of Shelburne, N. C. Trial bottles free at S. Anderson & Son's Drug Store. Regular size 50c and \$1.00. Every bottle guaranteed.

The Mendelssohn club held an interesting session here Monday evening. A delegation was present from Brunswick. Miss Ethel Hyde kindly sang a solo which created much enthusiasm. The Bath chorus is looking forward with much pleasure to the grand concert in Brunswick, May 11, in which will appear Maconda and a number of other great artists.

The steamer Kennebec, Capt. Collins, arrived Tuesday morning from Boston at five o'clock. She had a large freight list for Bath and quite a number of passengers. The steamer has been thoroughly overhauled and is in first class condition and it is expected she will have the same popularity with the public as in previous seasons. She holds the title of being one of the most popular steamers running out of Boston. For the present the time table will be three round trips a week, leaving Bath every Tuesday, Thursday and Saturday and leaving Boston Monday, Wednesday and Friday.

James F. Kelley, the popular agent of Hoyt's express, had a narrow escape from a serious accident Saturday while loading his team at the depot. He was putting on a large bundle of young trees and they extended over the front of the cart striking the horse. When she looked around and saw the bundle she became frightened and started. Mr. Kelley was thrown between the rear wheels with one leg in the cart. He held on to the wheel and prevented it from turning until the horse was stopped at the head of the street. It was a dangerous position to be in, for had the wheel turned it would have resulted in serious injury to Mr. Kelley.

## CHILD KILLED.

Little Eva Solovich Run Over By Trolley Car.

DEATH WAS ALMOST INSTANTANEOUS

Inquest Held Sunday and Railway Employees Absolved from Blame for the Accident.

The first fatal accident in this city on the Lewiston, Brunswick and Bath Street Railway occurred Saturday evening and the victim was the little daughter of Mr. and Mrs. Joseph Solovich, a Jew family who reside on Front street. She was aged 4 years and 6 months. The accident occurred on Front street opposite the Columbia Theatre and from the stories told by the few people who witnessed the accident it happened in such a manner that the men on the car and bystanders were unable to do anything to prevent it.

Car No. 34, Conductor Grows and Motorman Merrill, was coming down the street and the little girl in an attempt to cross in front of the car, was caught and knocked down.

Motorman Merrill says he only saw the girl when she was within a few feet of the car and he did all in his power to stop. When the car was brought to a standstill the child was underneath on the track. The car was started ahead and moved over the child. Dr. Bibber happened to be in the vicinity and the child was immediately removed to Leonard & Mitchell's drug store and on examination it was found that death was almost instantaneous. She breathed only a few times.

The wound in the head was a sharp cut over the temple denuding the skull and fracturing it. She bled freely at the nose and mouth. The parents of the child were immediately notified. A crowd had gathered in front of the drug store and Marshal Kittridge was on guard at the door to prevent people crowding into the store.

When word was sent out that the child was dead the poor mother was nearly prostrated. She was taken home by Mr. Solovich through the crowd and many expressions of sympathy were heard on all sides. Eva was the oldest child and a favorite. Coroner Ballou was sent for and on his arrival the body was removed to Coney's undertaking rooms.

Motorman Merrill and Conductor Grows were taken into custody by Marshal Kittridge and detained in his office. No complaint was made against them and they were released with orders to appear at the inquest. The inquest was held Sunday afternoon. The jury were John O. Shaw, Frank A. Palmer, Charles L. Turner, Harry C. Webber, Fred D. Hill and R. P. Ham. Nine witnesses were summoned. The testimony introduced was as follows:

Dr. R. D. Bibber: Did not see the accident, but saw the car near the corner of Front and Summer streets and saw an object in the track opposite Russell's store five or six feet from the rear of the car; heard a groan; I requested the child be removed to Leonard & Mitchell's; she breathed only four or five times after she was picked up; there was no heart action and no pulse at the wrist; she lost a large quantity of blood; the wound was in the left side of the head about six inches long and was an oblong cut; the temple bone was broken and carried away blood vessels; fracture of base of brain; the body was not otherwise injured; the immediate cause of death was concussion of the brain caused by coming in contact with the car; don't know what struck the head; the wound was caused by something sharp; I did not notice the speed of the car; in my opinion it was going twice as fast as I was walking; I was walking about three miles an hour.

Chas. H. Miller testified:

## FIBROID TUMOR CONQUERED.

Expelled by Lydia E. Pinkham's Vegetable Compound—Strong Statement from Mrs. E. A. Lombard.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Fibroid Tumor. The growth of these tumors is so slow that frequently their presence is not suspected until they are far advanced.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by excessive menstruation accompanied by unusual pain extending from the ovaries down the groin and thighs.

If you have mysterious pains, if there are indications of inflammation or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound right away and begin its use.

Mrs. Pinkham, of Lynn, Mass., will give you her advice free of all charge if you will write her about yourself. Your letter will be seen by women only, and you need have no hesitation about being perfectly frank.

Read what Mrs. E. A. Lombard, Box 71, Westdale, Mass., says: "I have reason to think that I would not be here now if it had not been for Lydia E. Pinkham's Vegetable Compound. It cured me of a fibroid tumor in my womb. Doctors could do nothing for me, and they could not cure me at the hospital. I will tell you about it. I had been in my usual health, but had worked quite hard. When my monthly period came on I flowed very badly. The doctor gave me medicine, but it did me no good. He said the flow must be stopped if possible, and he must find the cause of my trouble. Upon examination he found there was a fibroid tumor in my womb, and gave me treatment without any benefit whatever. About that time a lady called on me and recommended Lydia E. Pinkham's Vegetable Compound; said she owed her life to it. I said I would try it, and did. Soon after the flow became more natural and regular. I still continued taking the Compound for some time. Then the doctor made an examination again, and found everything all right. The tumor had passed away, and that dull ache was gone."

Trained nurses have adopted Comfort Powder because it quickly relieves all irritation and chafing of the skin. It makes baby so comfortable they call it the "perfect baby powder." 25 and 50 cents a box. At all Druggists. Harmless and reliable.

I live in Lisbon, aged 38 years, occupation, motorman, was running car No. 34. The accident happened at 6:42 on Front street, near foot of Summer street on a down grade. Have been motorman 9 months, remember distinctly rate of speed the car was going at the time of accident. It was about 6 miles an hour which is the usual speed I run through Front street. I was not using any power and had brake partially set on account of the cross streets in this vicinity. First saw child within two feet of rail about three feet ahead of the car coming toward it. She kept going and was on the track when the car struck her. She was trying to go across ahead of the car. Couldn't say what part of the car hit her, think it was the truck frame. She was under the car when it stopped, afterwards started the car ahead over the body so it could be removed. She started from the east side of the street and did not stop. No part of the car touched her when we started ahead after we stopped the first time. The car was stopped within 8 feet after I saw her. Have been motorman on the road since it started operations. Have been bothered with children playing about the track, they frequently run out and place things on the track. The running time from head of Centre street to car barn is 71-2 minutes, should judge the distance was about a mile. The child was under the gear case. We are instructed to run about 6 or 6 miles an hour in the city. Have never heard of motorman being discharged for not being able to make time. The space underneath the car from the pavement is about six inches. The last stop the car made previous to the accident was at Jordan's stable. Never had an accident before.

John E. Fitzgerald testified: Did not see the accident. Was on the car returning from Brunswick and about to get off; had motioned the conductor to stop when I heard somebody say: "You have run over a child," and another: "Don't go ahead." I immediately started for the drug store to telephone for a doctor and met Dr. Bibber. Went with him and saw the child on the track between the rails. Did not know the car had run over anybody until it stopped. It came to a standstill so suddenly that it almost threw me over. The bell had been rung to let me off; it happened about the same time the child was struck. The car was running about 6 or 8 miles an hour; Don't remember car stopping at Jordan street. The car was about four feet from the child when I saw it.

Chas. Grows testified: Live in Lisbon Falls and been conductor on L. B. and B. R.R. for 9 months constantly. Did not see accident. First saw child when it was under car after we had stopped. I gave orders for car to go forward as there was no other way to get the child out from under it. I instantly inquired for a doctor when Dr. Bibber appeared. I let him have charge of the body. I then ran the car up to the waiting room.

Fitzgerald gave me a motion to stop the car for him to get off and I was in the act of giving two bells to keep on going when I heard somebody in the street say: "You have run over a child." About eight feet of the car had gone over the body when it stopped.

The child was under the gear case. The car had slackened speed considerably after I rang the bell for Fitzgerald. We were running six or seven miles to the city. When the car stopped I supposed it was owing to my signal. No part of the car touched the child when it was moved ahead after the accident to allow an opportunity to get at the body. This is my first accident on the road.

Chas. P. Snow, an employe of the road, testified that he was in the car. First knew of the accident just after the car stopped; saw the child under the car, under the gear casing. The car was started forward again in a moment or two. I assisted in carrying child to the drug store. Saw Fitzgerald signal Conductor to stop. The child opened its mouth when it was in my arms.

Houghton Kimball and Wm. Labree, two boys who were standing on the sidewalk nearly opposite the spot where the accident occurred, testified that they saw the child when she was struck by the car and thrown down;

What is the price of Dobbin's Electric Soap?"

"Five cents a bar full size, just reduced from ten. Hasn't been less than ten for 33 years."

"Why that's the price of common brown soap. I can't afford to buy any other soap after this."

"Send me a box of Dobbin's Electric. It would be very foolish for me to buy any other."

did not see her before and did not know where she came from. They saw a little boy running on the track and hollered at him to get off. He turned around the corner by Foote & Sparks; saw the car when it struck the child. It was going slow. Labree said he turned his head away from the car at that instant.

The jury then viewed the body which was in the rear room of the establishment. According to the Jewish custom the body had to be left just as it was after the accident. They do not want to dress it but bury it as soon as possible.

The jury after a brief session in Dr. W. G. Webber's office made up the following report:

That Eva Solovich came to her death by being struck and run over by car No. 34 of the Lewiston, Brunswick and Bath Street Railway on the evening of April 15, 1899, and that from the evidence produced no blame can be attached to the employees of the road.

The body was taken to Portland this morning for interment in the Jewish cemetery.

Mr. Solovich will bring action against the road for damages and has engaged E. C. Plummer Esq., as counsel. He was present at the inquest. F. E. Southard, Esq., and Supt. Malcom were present representing the road.

# Allcock's POROUS PLASTERS

Why are Allcock's the best plasters? Because they make the cures where all others fail. Why do they make the cures? Because they contain the right materials. Compare their fine aromatic odor with the nasty smell of all other plasters. Your sense of smell will tell you which is the best. Did you know that Allcock's have a greater sale than all the other kinds put together? Did you know that all makes and brands of so-called porous plasters are in imitation of Allcock's? But they imitate in appearance only. Don't waste your money in buying the false. Get ALLCOCK'S, the standard plaster of the world.

## THE BIGGEST HULL

Now Being Begun in the Shipyard of the Bath Iron Works Company.

## THE CONNECTICUT'S KEEL IS LAID.

In the Bath Iron Works shipyard south of the ways on which rests the practice vessel Chesapeake, being built for the Annapolis cadets, a keel is being placed in position for the largest government vessel the Works have ever contracted for, the U. S. monitor Connecticut.

The craft will be in length over all 255 ft., 1 1/2 in.; length on load water line, 252 ft.; draft, 12 ft., 6 in.; beam, moulded, 49 ft., 10 in.; beam extreme 50 ft.; moulded depth at side, 14 ft., 11 1/4 in.

The Connecticut will have a steel double bottom throughout and one turret. The upper part of the craft as well as the turret will be of heavy armor plate. The armament consists of two twelve-inch, high power guns, four four-inch, three six-pounders and four one-pounder.

The monitor will be used for harbor defence and will be admirably adapted for the purpose for which she is designed. The engines on board will give her a speed of twelve knots.

Compared with other naval vessels of her size the monitor will carry a small complement of men.

The cost of the Connecticut when she leaves the Bath Iron Works will reach nearly a million dollars. The Connecticut with 400 tons of coal in her bunkers can easily steam 4,400 miles, a distance equal to that from New York straight to Genoa, Italy, or from San Francisco to Honolulu and return.

Building material sufficient for the present work is now in the yard and a large amount is now on the way to Bath. Workmen on the practice vessel are now engaged in placing planking of yellow pine on the hull below the water line. The wood work will be protected by copper and cause

## CUBAN CURIOS.

Captain William R. Kimball Brought a Museum Home With Him From Cuba.

WEAPONS, ORNAMENTS, TOBACCO.

A large and interesting collection of relics has been brought home from Cuba by Capt. Wm. R. Kimball of Battery D, 1st Maine Heavy Artillery, and are now on exhibition in the parlors of Capt. Kimball's home on High street.

Conspicuous among the curiosities are Cuban arms and cavalry swords of various styles, some of which are attractively ornamented, including one blade of the Spanish type with handle of inlaid pearl. Near the swords is a Spanish bayonet, an ugly weapon when on the end of an enemy's gun. There are many kinds of belt buckles, some of which are decorated with the Spanish coat of arms. Similar designs appear in numerous artillery, army and navy buttons representing various branches of the service as well as ornaments worn on the collars and breasts of the officers.

Cartridge boxes brim full of the much dreaded poisonous bullets are displayed as well as soldiers' pocket books, cuff ornaments, gaudy caps, gaily decorated fans with pictures of the bull fight, helmet pieces, Spanish money, candle sticks, water jugs, Catholic charms purchased at one of the old markets, Spanish newspapers, straw hats once worn by Cuban soldiers, Spanish spurs, Cuban stamps, charred pieces of wood from the wreck of the Maine, wood from the royal palm and Spanish handkerchiefs, giving descriptions of some of the battles.

A stand on one side of the room is adorned with over forty varieties of cigarettes and Cuban cigars.

Included in the Cuban collection is an ancient altar bell which for years has been within a Spanish convent.

Some pieces of cut glass are on exhibition, including a wine glass used, the last time, at the reception to Gomez in Mariano where Mr. Kimball was on duty as captain of the guard.

## BAD COMPLEXIONS RED ROUGH HANDS

FALLING HAIR PREVENTED BY CUTICURA SOAP

The most effective skin purifying and beautifying soap in the world, as well as purest and sweetest for toilet, bath, and nursery. It strikes at the cause of bad complexions, red, rough hands, falling hair, and all blemishes, viz, the clogged, irritated, inflamed, overworked, or sluggish pores.

Sold throughout the world. FORTER & CO., Prop., Boston. How to Have Beautiful Complexion, Free.

The three masted schooner, Frances Shubert, bringing a cargo of iron from Philadelphia to this city for Arthur Sewall & Co., arrived at the mouth of the Kennebec Monday night with flying jibboom broken off and disabled. She was towed to this city Tuesday.

## TONIGHT AND TOMORROW NIGHT

And each day and night during this week you can get at any drugstore Kemp's Balsam for the throat and lungs, acknowledged to be the most successful remedy ever sold for Coughs, Croup, Bronchitis, Asthma and Consumption. Get a bottle today and keep it always in the house so you can check your cold at once. Price 25c and 50c. Sample bottle free.

There is a little activity along the river among the ice vessels. The first of the fleet arrived this week and passed up. The John Linnell and the Ellen M. Golder are loading for Washington, the Everett Webster for Baltimore and the Rebecca Shephard arrived Tuesday to load for Philadelphia.

## GIVE THE CHILDREN A DRINK

allied Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about 1/4 as much as coffee. 15c and 25c.

Bert J. Redlon and Miss Charlotte Richardson went to Portsmouth Saturday and were married. They returned home Saturday evening and will reside at 25 Getchell street. Mr. and Mrs. Redlon are receiving hearty congratulations from their many friends with best wishes for a happy and prosperous married life.

## DOES COFFEE AGREE WITH YOU?

If not, drink Grain-O—made from pure grains. A lady writes: "The first time I made Grain-O I did not like it but after using it for one week nothing would induce me to go back to coffee." It nourishes and feeds the system. The children can drink it freely with great benefit. It is the strengthening substance of pure grains. Get a package today from your grocer, follow the directions in making it and you will have a delicious and healthful table beverage for old and young. 15c and 25c.

At the Knickerbocker Towing Co.'s office there is a megaphone with a history. It was formerly a part of the steam fog horn on the schooner Monhegan, formerly the schooner Lena Dickson. When the vessel was wrecked several years ago on Monhegan the name was changed to the Monhegan by the Towing Company, which purchased the vessel. By slight alterations the fog horn was made into a powerful megaphone. It is constructed of copper and is used in hailing the tows as they pass up by the office.
